INTERVIEW QUESTIONS

// Question No.11 "Iterate through the properties of an object using a for-in loop."

```
let myObject = {  
  name: "Henry",  
  age: 25,  
  city: "California",  
  occupation: "Developer"  
};
```

```
for (let key in myObject) {  
  if (myObject.hasOwnProperty(key)) {  
    console.log(`${key}: ${myObject[key]}`);  
  }  
}
```

// **Output**

name: John

age: 25

city: New York

occupation: Developer
