# INTERVIEW QUESTIONS

// Question No.5 "Find the sum of all positive numbers in an array."

```
function sumOfPositiveNumbers(arr) {  
  
    const positiveNumbers = arr.filter(number => number > 0);  
  
    const sum = positiveNumbers.reduce((accumulator, current) => accumulator + current, 0);  
  
    return sum;  
}
```

```
const myArray = [1, -2, 3, -4, 5];  
const result = sumOfPositiveNumbers(myArray);
```

```
console.log("Sum of positive numbers:", result);
```

// Output

Sum of positive numbers: 9
