INTERVIEW QUESTIONS

// Question No.14 "Find the maximum of three numbers using nested ternary operators."

```
function findMaxOfThreeNumbers(a, b, c) {  
    return a > b ? (a > c ? a : c) : (b > c ? b : c);  
}
```

```
let num1 = 15;
```

```
let num2 = 10;
```

```
let num3 = 12;
```

```
let maxNumber = findMaxOfThreeNumbers(num1, num2, num3);
```

```
console.log(`The maximum of ${num1}, ${num2}, and ${num3} is: ${maxNumber}`);
```

// Output

The maximum of 15, 10, and 12 is: 15
