JAVASCRIPT INTERVIEW QUESTIONS

```javascript
// Question No.7 "Remove all duplicates from an array without built-in methods.

function removeDuplicates(inputArray) {
    let uniqueArray = [];

 for (let i = 0; i < inputArray.length; i++) {
    if (uniqueArray.indexOf(inputArray[i]) === -1) {
    uniqueArray.push(inputArray[i]);
  }
 }
    return uniqueArray;
}
                                                                  // Output

let arrayWithDuplicates = [1, 2, 3, 4, 2, 5, 1, 6];              [ 1, 2, 3, 4, 5, 6 ]
let arrayWithoutDuplicates = removeDuplicates(arrayWithDuplicates);
console.log(arrayWithoutDuplicates);
```
